Education
University of Maryland, Baltimore County - B.S. in Computer Science, Dec 2019

Security Clearance
Top Secret, T5 (Active, DoD)

Work Experience

Booz Allen Hamilton

Lead Full Stack Software Engineer *(Jan 2025 - Present)*
- Leading the modernization of legacy DoD applications by implementing scalable, high-performance software solutions.
- Providing technical mentorship and guidance to junior developers while overseeing Agile development workflows.
- Engaging directly with government stakeholders and SMEs to refine requirements and present system improvements.
- Driving architectural decisions and best practices for full stack development using Angular, C#, .NET, and SQL Server.

Staff Full Stack Software Engineer *(Mar 2022 - Dec 2024)*
- Developed and maintained web applications that optimize data management for DoD clients.
- Collaborated with cross-functional teams to implement Agile methodologies, ensuring high-quality software delivery.
- Presented during client meetings to present product functionality and gather requirements.
- Integrated C#, Angular, .NET, and SQL Server to develop user-friendly and efficient applications.

Customer Value Partners Inc.

Junior Software Engineer *(Feb 2020 - Mar 2022)*
- Developed web applications for government agencies (HHS, DHS, EPA) using React, AngularJS, .NET MVC, and Node.js.
- Designed and built RESTful APIs with Node.js/NestJS and TypeORM, improving backend performance.
- Participated in Agile ceremonies, sprint demos, and backlog refinements with clients.
- Conducted unit and regression testing to maintain software quality.

Skills
- **Programming:** JavaScript, TypeScript, C#, Python, SQL, HTML, CSS, React, Angular, Node.js, NestJS, .NET MVC
- **Databases:** SQL Server, PostgreSQL, MySQL, SQLite, Oracle
- **Tools & Technologies:** Git, GitHub, GitLab, TortoiseSVN, Jira, Confluence, Postman, Docker, AWS, Looker, Visual Studio, VS Code
- **Methodologies:** Agile, Scrum, Test-Driven Development (TDD), CI/CD
- **Soft Skills:** Leadership, Mentorship, Communication, Collaboration, Problem-Solving

Projects
- **Portfolio Website:** Designed and built a personal portfolio website using React, HTML, CSS, and SCSS.
- **Mountainside Wanderer:** Developed a 2D adventure game in Unity with C#, designing mechanics, levels, and UI.
